Overview

Background

IZI69 requested that KREDICT perform an Extensive Smart Contract audit of their Smart Contract.

Project Dates

The following is the project schedule for this review and report:

Oct 21 : Smart Contract Review Completed (*Completed*)

Oct 21 : Delivery of Smart Contract Audit Report (*Completed*)

Review Team

The following KREDICT team member participated in this review:

- Abhishek Mishra , Security Researcher and Engineer

Coverage

Target Specification and Revision

For this audit, we performed research, investigation, and review of the smart contract of IZI69.

The following documentation repositories were considered in-scope for the review:

Token Name	IZI69
Symbol	IZI69
Chain	 BSC Mainnet
Contract Address	0xAa5F203F977EB83504f6CAe9Bf4B335d391AD59c
Supply	690000000000
Decimal	9
Burn	0.00%
Owner address	0x0a45ecae810750a98040dedb49c59aa2a21e36d6
Creator address	0x130b2489eb356c25e3b62a7560c97d6f3af20f84
Is open source?	 Is open source

Risk analysis

Buy tax	0%
Sell tax	0%
Is honeypot?	 Security
Can edit tax?	 Security
Is anti whale?	 Security
Can take back ownership?	 Security
Is blacklisted?	 Security
Is whitelisted?	 Security
Is mintable?	 Security
Is proxy contract?	 Security
Can transfer pausable?	 Security
Is Trading with CooldownTime?	 Security

About KREDICT

We believe that people have a fundamental need to security and that the use of secure solutions enables every person to more freely use the Internet and every other connected technology. We aim to provide security consulting service to help others make their solutions more resistant to unauthorized access to data & inadvertent manipulation of the system. We support teams from the design phase through the production to launch and surely after.

The KREDICT team has skills for reviewing code in C, C++, Python, Haskell, Rust, Node.js, Solidity, Go, and JavaScript for common security vulnerabilities & specific attack vectors. The team has reviewed implementations of cryptographic protocols and distributed system architecture, including in crypto currency , block chains, payments, and smart contracts. Additionally, the team can utilize various tools to scan code & networks and build custom tools as necessary.

Although we are a small team, we surely believe that we can have a momentous impact on the world by being translucent and open about the work we do.

For more information about our security consulting, please mail us at SUPPORT@KREDICT.COM
